

SERVICE: PRO-CHEX

Client User Guide

Using the Dashboard

The Dashboard is the default landing page within the Client portal. If PRO-CHEX is enabled, a PRO-CHEX box will be displayed. Summary information on current check transactions and status will be displayed for accounts the user has been granted access. Active links are embedded within the PRO-CHEX box to permit users to navigate from the dashboard landing page into the PRO-CHEX service module or directly to transactions in the status selected. Dashboard totals are updated in real time as transaction status values are changed by a user. The content displayed in the PRO-CHEX summary box includes the following:

The screenshot shows a blue header with 'PRO-CHEX'. Below it is a light blue bar with the text 'End of Day Cut-Off Time: Thursday 7:00 PM EDT'. The main content area contains the following information:

Exceptions	\$45,234.52	82		
Set to Pay	\$45,159.97	80	Set to Return	\$74.55
				2

Service Name

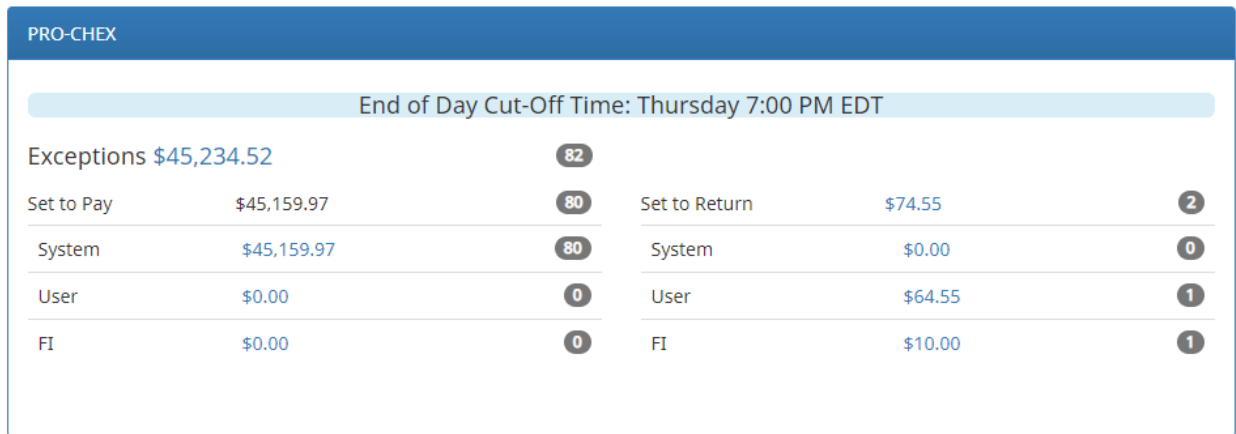

In the example provided, clicking PRO-CHEX on the left in the title bar will direct the user to the main menu.

End of Day Cut-Off Time

Displayed in the second bar, the time of day indicates when transactions that require decisions will no longer be eligible for user decisions.

Exceptions

Clicking on the dollar amount hyperlink on the Exceptions line will direct the user to a filtered view of Transaction History that will display only exceptions that require a decision.

The screenshot shows the same PRO-CHEX dashboard as above, but with a detailed breakdown of the 'Set to Pay' and 'Set to Return' amounts. The 'Set to Pay' total of \$45,159.97 is broken down into System (\$45,159.97), User (\$0.00), and FI (\$0.00). The 'Set to Return' total of \$74.55 is broken down into System (\$0.00), User (\$64.55), and FI (\$10.00). Each line item includes a count in a circle.

End of Day Cut-Off Time: Thursday 7:00 PM EDT				
Exceptions	\$45,234.52	82		
Set to Pay	\$45,159.97	80	Set to Return	\$74.55
				2
System	\$45,159.97	80	System	\$0.00
				0
User	\$0.00	0	User	\$64.55
				1
FI	\$0.00	0	FI	\$10.00
				1

Set to Pay / Set to Return

Clicking on the dollar amount hyperlinks on the Set to Pay or Set to Return lines will expand the view to display a breakdown of the total for each category. System Pay or Return indicate transactions that will pay or return if no action is taken due to the default status. User pay or return indicate a Client user decision has occurred. FI pay or return indicate an FI decision has occurred on behalf of the FI.

Creating a Client User

A Client User with Admin user privilege can add additional Client users who will then be authorized to use PRO-CHEX.

1. From Client Dashboard > Click Manage Users.
2. The Client Users page appears. Click the “Create New User” button.
3. The New User page appears. Fill out all fields available, the click “Create User” button.
4. If the user is configured for standard security login, the New User interface will display.
5. Assign the appropriate privileges for the Client User.
6. Save changes.

Manual Check Entry

Clients can manually enter a list of checks that have been issued. To manually enter an issue item, the user must be granted the manual issue entry user privilege.

1. From the PRO-CHEX module, click Perform > Manual Issue Entry.

Manual Issue Entry

Account? Auto populate next check number:

Row	Serial Number	Amount	Payee Name?	Status	Issuance Date
	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text" value="ISSUED"/>	05/28/2020

Click any row to select that row for editing

2. Enter the appropriate information in the fields and click the Save button.

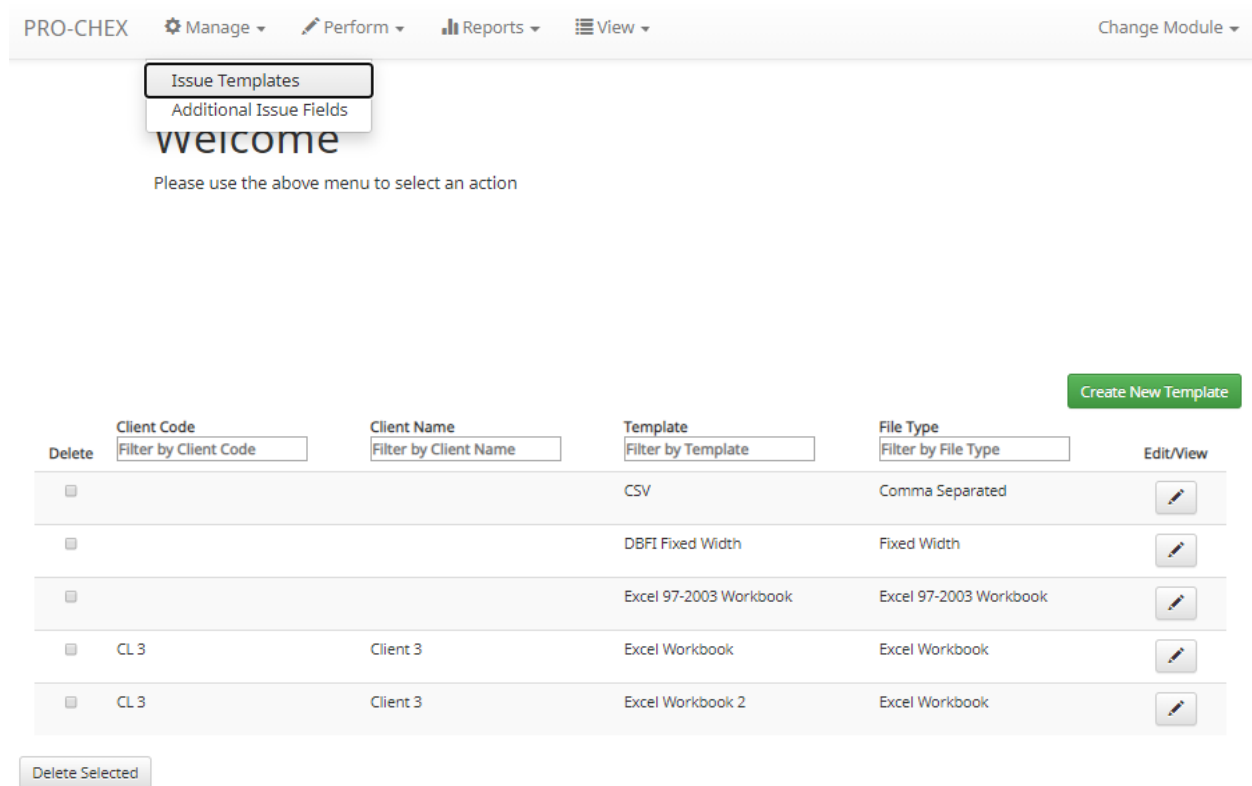

Issue Templates

The purpose of issue templates is to make it easy to load issue items into PRO-CHEX using files that can be generated out of most accounting systems. PRO-CHEX provides organizations a variety of flexible options for providing a list of checks that have been issued or voided. Issue templates allow users to select from a list of file formats supported and identify where the required data elements are located within the file.

Once a template has been set up, the template can be selected when loading a file to tell PRO-CHEX how to utilize the data contained in the file.

Multiple file templates can be set up, displayed and used. FI's can create templates for Clients to use or the FI may choose to allow Clients to create their own templates.

1. From within the PRO-CHEX module, click Manage > Issue Templates

Delete	Client Code Filter by Client Code	Client Name Filter by Client Name	Template Filter by Template	File Type Filter by File Type	Edit/View
<input type="checkbox"/>			CSV	Comma Separated	
<input type="checkbox"/>			DBFI Fixed Width	Fixed Width	
<input type="checkbox"/>			Excel 97-2003 Workbook	Excel 97-2003 Workbook	
<input type="checkbox"/>	CL 3	Client 3	Excel Workbook	Excel Workbook	
<input type="checkbox"/>	CL 3	Client 3	Excel Workbook 2	Excel Workbook	

2. The mapping section below will display based on the file type selected. **It is important to note that not all fields/options seen in these graphics may be available for your organization based on settings configured by your financial institution.**

Excel and separated files will require Clients to define the column data elements that will be found

Issue Warehouse

PRO-CHEX provides FI and Clients with the visibility to see the status of all issued items. Authorized Client users can modify items in the Issue Warehouse. Clients can use the Issue Warehouse to search for issued items for a Client or specific account using one of the many filtering options available.

1. Within the PRO-CHEX module, click View > Issue Warehouse.

2. The Issue Warehouse page appears.

Issue Warehouse Date Range
May 29, 2020

Filters >

8 transactions totaling \$8,066.91
Rows 1 - 8 of 8.
